Save energy

Eliminate blinds

Enhance comfort

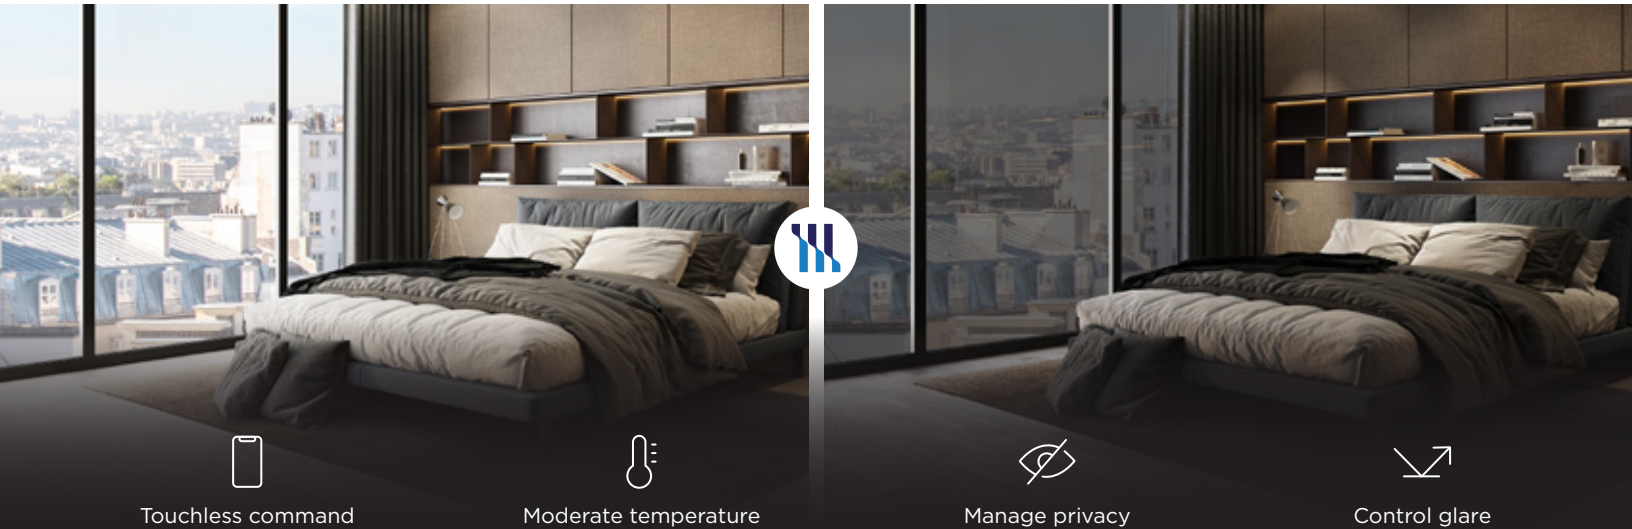

Product
Miru Sky™

Miru's smart windows customize the tint of glass at the push of a button. Customize your environment for comfort while reducing your carbon footprint.

Beyond ordinary

Ordinary windows increase your energy use and require blinds that block your view.

Miru Sky™ is beyond an ordinary window. From your smartphone, optimize the natural light in your home to keep cool, manage glare, control privacy and lower your energy use.

Touchless command

Moderate temperature

Manage privacy

Control glare
